## DSU STUDENT LEADERSHIP ELECTIONS

### Rayhan Maria

International Students  
Representative

The Kurdish people have long been subject to struggle and oppression, how long will we sit back and do nothing! I strive for the DSU to build political support for the national liberation of the Kurdish people to recognise the role of the YPG in combating Daesh (ISIS)

DMU sponsored education resources for political refugees- Education should no longer be seen as a privilege. Everyone should be entitled to free education regardless of their political beliefs. Factors such as religion, gender and ethnicity should have no part in this!

The DSU must campaign for recognition of the state of Palestine so Palestine can EXIST and be recognised as a free and liberal state, I strive to put an end to Israeli occupation/settlements.

Childcare support for students on DMU global trips and hardship funds for those who are unable to fund trips for courses. Crèche facilities should be given for students at little to no cost providing students with essential childcare and support services such as babysitters, Which will allow them to focus on their education knowing that their children are in safe hands.

Make a stand against anti-union laws, Make a stand with workers!

More Male awareness in regards to sexual health the number of STI'S has risen alarmingly in males. There should be more in terms of support given to both male and females in terms of education. Relationships, contraception, and other sensitive issues must be faced!
