

DEPUTY PRESIDENT EDUCATION

CALLUM CONNELLY

#LEADYOURDSU

demontfortstudents.com/elections

My Aims

- **Course Rep Revamp**
I will change how the Course Rep system works making it easier, more reliable and more effective.
- **International Student Equality**
International students should have the same experience as any other student this can be achieved with support from the SU and the University
- **Course2Course**
I will encourage courses and even modules across DMU to collaborate with each other, working together to improve the educational experience DMU has to offer

My Experience

- **Course Rep**
I have been a Course Rep for Media Production for over two years. During this time I have voiced my fellow student's opinions on the course and taken steps to ensure any issues are resolved.
- **FOTAC evening monitor**
During my time at the FOTAC desk I have helped students solve problems on the spot, either by using my initiative or by directing them towards someone who can help solve their problem.

What I would like to achieve

- **Course Rep Revamp**
 - The Deputy President Education will be held to account by the students
 - Students will be able to see how their issues are being dealt with
 - Course Reps will be properly trained and able to help students with a wide variety of issues.
- **International Student Equality**
 - International students will be offered extra support to help settle in at DMU
 - I will work with the International Students' Representative to organise cultural and educational events for international students
 - International students will be encouraged to get involved with the Students' Union.
- **Course2Course**

I will encourage and enable courses at DMU to communicate and collaborate with each other. This will help to develop a variety of important key skills. For example, an English student could write a story and a film student could turn it into a film starring Drama students.
