## VOTE NABEELAH FOR DEPUTY PRESIDENT EDUCATION

Hi, my name is Nabeelah Omarjee and I will be your Education Advocate; taking your learning experience to the digital age.

Do you often realise that you've missed out on something important while you hurry to make notes during lectures?

LECTURE CAPTURE is the solution!

- In 50 minutes we are given a mound of information and once the lecture is over, there is no going back, right? WRONG!
- Lecture Capture allows for visual as well as audio resources to become available online via Blackboard.
- This small addition onto courses caters for more than one learning style and it gives you the much needed chance to go back and get YOUR money's worth of information, enriching your learning experience.

How often do you find yourself with no printing credits when you need it most?

ONLINE SUBMISSIONS is the answer!

- This simple tweak to the system will not only

save paper, it will save you time and money making YOUR education a little bit cheaper. Do you find your timetable confusing, frustrating or unrealistically demanding?

Would you prefer to have a timetable that is fixed, allowing you to plan your week more efficiently?

## VOTE NABEELAH to make a change!

- TIMETABLING is an issue for many students. I plan to work with DMU to assure timetables are reasonable to facilitate productivity and safeguard YOUR LEARNING EXPERIENCE.

I am a second year Psychology student. As a School Representative I had the unique opportunity to represent DMU students at partner institutes in Sri Lanka and Singapore and I would love to represent YOU next year.

The Student Voice matters. I will strive to assure YOUR EDUCATION and YOUR VOICE is heard when it counts.

**For your tomorrow VOTE NABEELAH  
OMARJEE, TAKING ACTION TODAY!**
