RE-ELECT ROUNSLEY for VICE PRESIDENT WELFARE AND COMMUNITY!

From being on the committee of a sports club to a recent graduate in January 2016, and having done a year in office, I have seen our Students' Union from the inside and the outside. I have the experience, passion and vision to drive our union forward.

If re-elected I will:

- **Run a big welfare survey to capture an overview of the student body and its needs** – this year I focused a lot on mental health, however I would like to know exactly what the student body needs, through that information I'll take action to create positive change.
- **Proactive not reactive student support** – the waiting line for support services, for example counselling, is getting longer and longer, instead of just being reactive to students in need, I want to look at a proactive approach to good student health.
- **A Safer You Campaign** – run campaigns to keep YOU safe! From theft, to harassment and bullying.

· **Lobby for funding for OUR DMU Surgery** – cuts are happening to the funding our campus surgery receives in the next year to support our students that extra mile regarding sexual and mental health. This is a huge issue we need to address; we can't see our support services decrease as we see a rise in mental health issues!

· **To improve YOUR social and community experience with more tailor made events, from career networks to national and cultural events.**

· **Carry on working with SULETS to better our accommodation and prices.**

From lobbying the university hall providers to freeze the percentage in which our student accommodation rates are rising, to stamping out stigma surrounding mental health issues, I believe there is still so much more to do!

For an inclusive and supportive community, make YOUR vote count and RE-ELECT ROUNSLEY!

NUS DELEGATE

I would like to nominate myself for NUS Delegate as I would love to represent De Montfort Students' Union on a national scale. I believe I have the experience and knowledge of the student movement to carry out this role with confidence and be able to support other delegates.
