PATEL

#LEADYOURDSU

[demontfortstudents.com/elections](https://demontfortstudents.com/elections)

I am an international student. I have been studying computing at De Montfort University for last five last years. In our daily life we often hear this famous phrase “Change is good” or some of you may probably mention this hundred times a day. Of course it is good and welcomed, as little change can save somebody’s academic career. But to make this happen we need a leader who would listen student affairs and represent thousands of student’s opinions. I believe I have this capability.

As Students’ Union President and with the feedback of students I aim to:

- Increase stay limit at Gateway house. Closing time would be 1 am. Alternatively there will be one dedicated area in the library for all computing student with necessary resources (Software’s etc.)
- Increase the careers and advisory support
- Have example work provided to students to use as a point of reference in all coursework.
