VICE PRESIDENT STUDENT ACTIVITIES

TONI MALLIN

#LEADYOURDSU

demontfortstudents.com/elections

My passion and pride for this university has inspired me to run for this position to enhance students' experience whilst at DMU. I would love for everyone to have the same experience I have had and I believe this is achieved through taking part in sports and societies.

If elected I will:

· Create more sports teams and societies that will enable more participation from those with disabilities

· Fight to eliminate Wednesday lectures ensuring students have the opportunity to partake in extracurricular activities

· Create more opportunities for societies to get involved in national competitions. Furthermore, organise more competitions and events held at DMU widening opportunities for other universities to visit Leicester.

· Promote and advertise clubs and societies to increase participation

· Get more teams entered into BUCS

· Provide students with the opportunity to gain external qualifications which would enhance CVs e.g. Coaching badges, refereeing qualifications, volunteering opportunities.

· Bring the whole university together in numerous charity events e.g. one big DMU sports day

Elected captain twice and therefore a strong member of the committee of the Universities football team, DMUWFC successfully went from one team to three with two of these being in BUCS. This shows that with dedication and determination I can strive to get more teams into BUCS and I will.

Achieving the 'Dedication and commitment' award at Colours 2014/2015 shows that I was recognised for my commitment to the club and the university as a whole.

Working for the charity organisation 'Indiability' gave me the opportunity to help underprivileged children in India. I gained valuable communication skills including sign language, thus assisting me with the delivery of Union campaigns.

With more teams, societies, the #DSUrevamp and Toni Mallin as your Vice President Student Activities, next year will be one to remember! #VOTEMALLIN
