My Aims

Deliver more support for students in terms of providing more places where students feel safe and are able to talk about their problems. I would like to lower the cost of rent within student accommodation. I've talked to many students and this is a big issue, not having enough money to cover the rent as well as living costs!

I want to try to find alternatives and support for those who were relying on the DSA.

I am also running for NUS delegate to help decide what the NUS campaigns and stands for!

I've received invaluable counselling in the past so I understand how hard it is to ask for and find someone to talk to. I know how irreplaceable it is and I want to fight to make sure students have the support they need and deserve. I'll do this by providing a larger more approachable service.

I have been a mentor and Course Rep for the past two years dealing with both academic and personal issues as I have made myself approachable. I have also worked for a letting agency which gives me an understanding of the cost struggles. Talking to students whilst

working for the letting agency, students feel ripped off and taken advantage of. I want to make sure that the prices and treatment of the students is fair by chatting with the local agencies and hope to strike an understanding.

I also want to bring issues with hidden course costs to light and make sure students are provided with enough equipment in the university to continue their studies. Overall I want to make sure the students are happy in and around university as well as listening and providing solutions for the students. I'm here for you!

NUS DELEGATE

I am also running for NUS delegate to help decide what the NUS campaigns and stands for!
